---

## Professional Summary

BTech student and aspiring Frontend Developer with hands-on experience building responsive web interfaces using HTML, CSS, JavaScript, React, Vite, and SCSS. Interested in creating clean, interactive user experiences and learning modern frontend development through practical projects.

## Technical Skills

**Languages:** JavaScript (ES6+), C#, C, Python, SQL

**Frontend:** HTML5, CSS3, SCSS, React, JSX, Vite, Tailwind CSS

**Tools:** Git, GitHub, VS Code, npm

**Concepts:** Responsive Design, Media Queries, React Routing, Components, State Management

## Education

**Bachelor of Technology (BTech) – Internet of Things / Industrial Internet of Things**

University School of Automation & Robotics (USAR) | 2024 – 2028 | CGPA: 8.2

## Projects

### Apple / macOS Portfolio UI

- Built a macOS-inspired portfolio interface using React, JSX and SCSS. Implemented reusable window components, navigation, dock UI, project cards, GitHub section and responsive styling.

### Zomato UI Clone

- Created a responsive food-discovery interface inspired by modern restaurant platforms, focusing on component-based React development and responsive layouts.

### Horoscope Web App

- Developed an interactive horoscope website with a modern frontend interface and dynamic content using frontend development tools and AI-assisted development workflows.

### Smart Energy Monitoring & Control System

- Worked on an IoT project using ESP8266/ESP32 and energy-monitoring sensors, connecting hardware concepts with a web-based monitoring and control experience.

## Relevant Experience

### Frontend Development – Academic & Personal Projects

2025 – Present

- Built multiple responsive websites and React interfaces as part of frontend learning and portfolio development.
- Practiced reusable components, routing, SCSS styling, JSON-driven UI and Git/GitHub workflows.
- Used AI coding assistants as a productivity tool while learning to understand and implement the underlying code manually.

## Achievements & Interests

- Interested in frontend engineering, UI/UX and modern web technologies.
- Preparing for frontend developer internships and entry-level opportunities.
- Currently strengthening JavaScript, React and DSA fundamentals.
